QUEST NIGHT

Card guide. Play with phones only, with real cards, or with both. Start by choosing a mode.

Choose a mode

Mode	Cards	How it works
Phones only	None.	Every player uses their phone for their role, votes and quest cards. Works for online play too.
Hybrid	Only the pieces you set to Physical.	Choose each piece on its own: secret cards, approve / reject votes, success / sabotage cards. Each one is In the app or Physical.
All physical	Real cards for every piece.	Real cards on the table. The Host's phone is the board, the tracker and the Host script. Players without phones can sit as seats.

Phones only needs no cards. Skip to the Host section, or open Quest Night on every phone and start.

The app always runs the board, the crown, the log, the timers and the Host script.

The Host

- The Host opens the table on their phone and sets the mode, the special roles and the seat order to match the real table.
- The Host plays too and gets a card. The house rule Host sits out is off by default. When it is on, the Host gets no card and sees the whole deal.
- In Hybrid and All physical, the Host enters only what the whole table already sees: votes, sabotage cards played and the Assassin's pick.
- The Host reads the opening script below, then each phase script on the Host tab.

The key

Piece	Cards
Role cards	**Red = Loyal, black = Evil.** The face cards carry the roles, see below.
Votes	Approve: ♥**A**–10, one per player. Reject: ♠**A**–10, one per player.
Quest cards	Success: ♦**A**–5. Sabotage: ♣**A**–5. One of each per party member.
The crown	♣**10**. Passes left after every failed vote and every quest.
The Lantern (optional)	Black joker. Loyalty cards: Loyal ♦**6**–10 and the red joker, Evil ♣**6**–9. Each player gets the loyalty card that matches the colour of their role card.

Role cards

Role	Card	Side	Sees
Merlin	K♥	Loyal	Every Evil player except Mordred. Oberon is seen.
Percival	Q♥	Loyal	Merlin and Morgana, without knowing which is which. Without Morgana, Merlin alone.

Loyal Servant of Arthur	J♥ / K♦ / Q♦ / J♦ Any other red face card.	Loyal	Nothing. Watch the votes and the quests.
Morgana	Q♠	Evil	The other Evil players, except Oberon. To Percival, looks like Merlin.
Mordred	J♠	Evil	The other Evil players, except Oberon. Hidden from Merlin.
Oberon	K♣	Evil	Nobody. Nobody sees Oberon, and Oberon knows no one.
The Assassin	K♠	Evil	The other Evil players, except Oberon. If Merlin is in play and three quests succeed, one last strike at a Loyal player.
Minion of Mordred	Q♣ / J♣ Any other black face card.	Evil	The other Evil players, except Oberon.

* Quest 4 at 7 or more players needs two sabotage cards to fail. Five rejected parties in a row on one quest and the Minions of Mordred win.

Merlin and the Assassin are always in. From 7 players, add Percival and Morgana; from 9, Mordred; at 10, Oberon. With only Merlin on, the app's default, pull the same cards for Merlin and the Loyal Servants, and the Minions for the rest. The app's lobby lists the exact cards for any mix.

Setup

For Hybrid and All physical, set up the pieces you set to Physical.

1. If the role cards are physical, pull them for your table (see the table above). Shuffle them face down and deal one to each player. Look at your own card in secret.
2. If the votes are physical, give each player one approve card and one reject card. If the quest cards are physical, put them near the table.
3. Choose the first leader at random (the app's coin or picker works). The crown passes left after every failed vote and every quest.
4. Read the opening script below, then play: the leader names a party, everyone votes at once, each party member plays one quest card face down (Loyal Servants must play success), and the leader shuffles and turns them over. The Host enters the result in the app.

Opening script (eyes closed, read aloud by the Host)

1. *Everyone, close your eyes and put your hand in a fist on the table.*
2. *Evil, except Oberon, open your eyes and look around. These are your allies.*
3. *(Pause.) Evil, close your eyes.*
4. *Evil, except Mordred, raise your thumb.*
5. *Merlin, open your eyes. These players serve Evil.*
6. *(Pause.) Merlin, close your eyes. Evil, lower your thumbs.*
7. *Merlin and Morgana, raise your thumb.*
8. *Percival, open your eyes. One of these is Merlin.*
9. *(Pause.) Percival, close your eyes. Thumbs down.*
10. *Everyone, open your eyes.*

Leave out the lines about roles that are not in your game, and "except Oberon" or "except Mordred" when that role is out. Quest Night is an original game in the hidden-minion quest family; names, wording and art are its own.
